

Realcade and Signcade Signs are manufactured using a sturdy and robust plastic construction, so they will never rust! The Realcade system has 2 spiked legs for planting into the ground and is available with either a Black or White frame. The Signcade system is a White external A-frame system that can be ballasted with sand for extra stability.

The Signs you see illustrated above are purely examples of just a few of the many possible uses for the Realcade and Signcade sign systems. If you are interested in any of our ideas, or have a few for your own, just give us a call. We will be more than happy to help and can provide you with a quote for your requirements free of charge.
